Summary

Accomplished software developer with comprehensive expertise in front-end and back-end technologies. Proficient in front-end development using React, React Native, Tailwind, JavaScript, Next.js, and TypeScript. Skilled in back-end development with Go, Python, Node.js, NoSQL, Prisma, and MongoDB. Recognized for exceptional problem-solving abilities, strong research capabilities, and collaboration. Dedicated to leveraging technical proficiency and experience to drive the development of innovative software solutions in a challenging role.

Projects

WingsOn

Jan 2024 – Feb 2024

Front End Web Project

React, Tailwind, Typescript, Node.js

- Final Project Frontend - Binar x Synrgy Academy BCA Batch 6 team 2
- Exclusive one-way flight booking platform, offering fast, secure, and efficient ticket booking services with a wide selection of routes.
- Implemented user-friendly features, including flexible departure date selection, various flight class options, and additional facilities to enhance the customer booking experience.

Hantoko

Mar 2024 – Present

Fullstack Web Project

Next.js, Tailwind Typescript, Node.js, Firebase

- Creating a simple personal online store website using Next.js, Node.js, TypeScript, Tailwind, and Firebase.
- Equipped with features such as authentication, database, profile, admin, checkout, and payment gateway.

Password Generator

Mar 2024 – Present

Web Password Generator

HTML, Tailwind, Javascript

- Creating a simple password generator website.
- Equipped with options to include uppercase letters, numbers, and symbols, with a maximum length of 50 characters.
- Users can select these options via checkboxes to customize their passwords.

Snake Game

Mar 2024 – Present

Cross-platform Mobile Game

React Native, TypeScript, Expo CLI

- Developing an interactive snake game application for Android, iOS, and web platforms using Expo and React Native.
- Includes game mechanics implementation, responsive UI design, and integration of touch gestures for gameplay interaction.

Chatins

May 2024 – Present

Fullstack Web Project

Next.js, Tailwind, Typescript, Node.js, MongoDB, Prisma, Pusher

- Creating a simple chat website using TypeScript, Next.js, Tailwind, Prisma, MongoDB, and Pusher.
- Equipped with real-time chat, authentication for registration and login, user-to-user and group chat, sent and read messages, and profile settings.

Education

Universitas Lambung Mangkurat
S.Mat. in Mathematics, GPA: 3.29 / 4.0

Banjarbaru, Kalimantan Selatan
Aug 2018 – Aug 2022

Technical Skills

Front End: React, React Native, JavaScript, TypeScript, Tailwind CSS, Next.js

Back End: Go, Python, Node.js, NoSQL (MongoDB), Prisma ORM

Data Science: NumPy, Pandas, R, Google Sheets

Libraries & Tools: Git, Docker, Linux

Certifications

- Synrgy Academy by Binar & BCA - Fullstack Web Developer
